The Print Supplier Group continues to attract new members

Calabasas, CA – The Print Suppliers Group announces the addition of three new members. Joining the group are Bowers Ink in Nashville, TN; Primary Colors in Greensboro, NC; and Strategic Ink Solutions located in Elk Grove (Chicago), IL.

“We are very pleased to have all of these highly respected companies join our group”, said Chris Cox, Executive Director of the PSG. “These companies provide service to local markets that we had previously not covered, and they provide that service with same level of dedication and quality that the printing industry has come to expect from a member of the PSG”.

“As a group, we unanimously agreed to bring these members on board after having met with them at one of our group meetings in January”, added Dennis Curtin, President of the PSG. “Not only were we impressed with the way they run their businesses, we were impressed with them as individuals, sharing the same level of integrity and business ethics our group prides itself on, add to that the fact that we thoroughly enjoyed spending time with them and bringing them in to the group was an easy decision” said Marlon Tusche, VP of the PSG.

According to John Toigo, also a VP within the PSG, “We plan to continue to expand the group, bringing in companies to better cover geographies our current members are not local to, as well as members that provide products or expertise that enhance the group overall”. Mr. Cox agreed with that and added “What we will not do is lower our standards or level of due diligence used in the new member approval process, it is that level of research and getting to know prospective members that has allowed us to form a group of individual companies that not only support the group year after year, but support each other as well.
